Check that the indicated utilities are present in OS X. If they are not present, then they need to be downloaded and installed. Setting up Jetty in Russian and installation instructions Jetties works with 32- or 64-bit versions of Microsoft Windows and Mac OS X operating systems up to version 10.5.2.1, which initially includes all developer language packs that can be downloaded from the official IBM website. There are several ways to set up and configure the program. Consider the most popular of them: Drivers for the Safari browser. By default, Jetta on Mac requires the latest version of the SAFARI browser to be installed. The language version of the Safari web browser. For the correct operation of the program, at the stage of installing the package, select the option - only in English. To update, you need to go to the official website of the manufacturer. Utilities for a VPN account. If your computer is connected to the Internet, then you should go to the security tab in the connection properties and disable .VPN from sharing. If your account does not work with JETTY, then check in the Users/Computer type/Table of languages/Languages â€‹â€‹section, the Russian language should be selected. For a correct shutdown, the folder may contain source codes, which later need to be transferred to a password-protected directory. Remember to run the program in Windows compatibility mode after installation. In this case, all language packs will be available. Download the Jetti installation package - from the official website of the developer. Attention. Jettty requires at least Internet Explorer version 7.0 or equivalent to fully function. The funds received as a result of the sale of the program can be used to purchase other IBM products - CAD, OS, software, .NET, .COM and the like. The program is packaged in ZIP format.
